

Press Release

Muhu Island 14 June 2011

**Pädaste Manor hosts Bentley
Iconic cars on Muhu Island**

Pädaste Manor was chosen to be integral part of the 'Bentley Grand Tour' through parts of New Europe which took place from 6 to 11 June, giving 16 journalists from all over the world the opportunity to experience super luxury in every sense. Following Bentley lifestyle drives in key target markets such as San Francisco, Shanghai, Muscat and Beirut, the UK based head-office decided to use the picturesque Baltic summer as a backdrop for their tour from Riga to Tallinn via Muhu Island.

Two groups of global journalists visited Muhu Island, having travelled from the US, Russia, Asia and all over Europe - all of them specialising in matters of luxury motoring and related lifestyle. Although they had been briefed to expect an absolute pristine and romantic Island with wild orchids, ancient Juniper forests, fishing villages medieval churches, they were nevertheless absolutely enchanted and completely surprised by the distinctive beauty of the island and the luxury and standards of Pädaste Manor with its unique ambiance and exceptional restaurant. Guests could enjoy cocktails overlooking the Baltic Sea prior to a sumptuous dinner at Alexander Restaurant, where Chef Peeter Pihel exceeded all expectations with his signature Nordic Islands' Cuisine. Chef Pihel holds the title Estonia's Chef of the year and Alexander restaurant has just been named Best Restaurant in Estonia for the second consecutive year.

"Pädaste Manor made a splendid stop en route for our global media drive in the Baltics. The drive from Riga to Tallinn and back was a first for Bentley, with two groups of lifestyle media who were enchanted by Pädaste's setting, and its mixture of magical calm, luxurious simplicity and warm hospitality. Like Bentley, Pädaste is simply one of a kind. The sense of personal attention is paramount in both. We both share a passion for perfection, discreet refinement, and individual experience. During our stay at Pädaste we experienced the best of the Baltics where time really does stand still " said Christine Gaskell, Board member for personnel, Bentley Motors

Before leaving Muhu, guests had the option to visit Island highlights or alternatively enjoy a couple of hours in the fabulous Pädaste Spa, where the signature treatments are based on local, fresh and organic products and working to ancient Island recipes. The journalists left Pädaste Manor and Muhu Island late morning in the fleet of spectacular Bentleys made up of Continental Flying Spur, Continental Flying Spur Speed and the new Continental GT.
